

MASTERS OF DISGUISE

Blending in to your surroundings is called **camouflage** (cam-uh-flahj—rhymes with garage). Hiding is a useful survival strategy for many animals.

PRACTICE:

Can you match each animal to its photo?

A dead leaf butterfly

B ghost crab

C arctic fox

D thorn bug

E common octopus

F mossy frog

G ornate ghost pipefish

H copperhead snake

DISCUSSION:

40

How does looking like a flower help this orchid mantis catch insects?

BUILD A BEAST

Use your imagination and what you've learned about adaptations to build a beast and describe how it would survive in its habitat.

PLAY:

For each category below, roll a 6-sided die and mark the results by circling the number that matches your roll.

ROLL 1. My beast moves using its...

- | | | | | | |
|---|--------|---|-------|---|-------------|
| 1 | hooves | 2 | wings | 3 | tentacles |
| 4 | fins | 5 | claws | 6 | webbed feet |

ROLL 2. The number of limbs my beast has is...

- | | | | | | |
|---|-----|---|-------|---|------|
| 1 | two | 2 | four | 3 | five |
| 4 | six | 5 | eight | 6 | ten |

ROLL 3. The color of my beast is...

- | | | | | | |
|---|-------|---|-------|---|--------|
| 1 | green | 2 | blue | 3 | gray |
| 4 | brown | 5 | white | 6 | orange |

ROLL 4. My beast's body is covered with...

- | | | | | | |
|---|--------------|---|-----------------|---|--------------|
| 1 | a hard shell | 2 | sleek scales | 3 | thick fur |
| 4 | smooth skin | 5 | glossy feathers | 6 | sharp spikes |

ROLL 5. My beast is known for its incredible...

- | | | | | | |
|---|--------|---|-------|---|-------------|
| 1 | hooves | 2 | wings | 3 | tentacles |
| 4 | fins | 5 | claws | 6 | webbed feet |

PRACTICE:

Answer each question below about your cool creature.

JOURNAL:

41 Draw your beast in your journal. Use the results from the previous page.

42 Does your beast live on land, in the water, or both? How does it move around?

43 What does your beast eat? How does it get its food?

44 What does your beast protect itself from—predators, harsh weather, or something else? How does it protect itself?

45 Explain how the color of your beast helps it survive.
